

Summary of the 2020 Yokohama Sport Conference

The 2020 Yokohama Sport Conference was held from 8th to 22nd September 2020 online. The theme of the conference was “Contributing to a Sustainable World”. The background in setting this theme is the United Nations’ 2030 Agenda for Sustainable Development and UNESCO’s International Charter of Physical Education, Physical Activity and Sport. Both were published in 2015.

In response to the different issues that humanity on this planet must address, in this conference, experts from multiple sports-related disciplines and industries collaborated in exploring clues for resolving complex social challenges and developing a vision for our future.

The programme was developed around 22 topics that incorporate approaches to the theme. The symposia, which followed presentations on different topics, stimulated the creation of new awareness, new research and development by promoting more in-depth discussion based on the key principles of a cross-cutting, highly interdisciplinary approach and international comparisons encompassing diverse cultural spheres. In addition, the general research presentations provided ample opportunities for exchange on research.

The number of abstracts and participants in each programme was as follows:

- 1 Keynote Lecture,
- 1 Special Session,
- 2 Public Programmes,
- 21 Thematic Lectures,
- 22 Symposia
- 15 General Symposia
- 1,058 General Research Presentations

The number of people who took part in this conference were:

- 101 invited speakers,
- 1,018 general symposia and general research presenters
- 1,923 registered attendees

The organizing committee has now summarized outcomes of the discussion as follows :

- 1. Challenges for sport in contributing to the comprehensive promotion of the Sustainable Development Goals (SDGs)**
- 2. Contributing to the achievement of the SDGs through educating the value of sport**
- 3. Challenges for sport to overcome human rights violation**
- 4. Disseminating quality physical education by rethinking physical experience: Contributing to a**

society in which diverse people live together in harmony

5. Development of sport and contribution to the achievement of the SDGs
6. Contributing to the achievement of the SDGs through support for high-performance and elite athletes
7. Contributing to the achievement of the SDGs through the promotion of sport and physical activity
8. Sport and technology: Applicability in an inclusive society
9. Considering issues for SDGs from a perspective of risk in sport
10. Contributing to the achievement of the SDGs from the history of sport and society relations
